Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

PRIMARY EXAMINER

Art Unit: 1774

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by European Patent(WO/9951425).

For reasons as set forth in the previous office action, inter alla.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over European Patent(WO 99/51425) in view of Turk et al(US 5738935) for reasons as set forth in the previous office action, inter alla.

5. Applicant's arguments filed 5-5-05 have been fully considered but they are not persuasive. Applicants' amendment to the claims have been studied. Applicants argue that the WO '425 reference extrudes material of different densities, eventhough the material of the composite members are the same.. applicants further argue that claim 1 was amended to the first and second composite members are of " preselected formulations". The examiner believes the cited reference indeed and still reads on the claims as now amended. The fact the material of the reference are of different densities,

it is submitted , make them indeed possess "preselected formulations". The reference thus reads thereon. Applicants further argue that there is reference to "molten precursor" and the reference fails to teach such reference. The examiner is unable to find such reference and request applicants to point-out same . Assuming arguendo, the examiner submits the any such claimed pre-formed material would not affect the claimed invention as such preformed material, it appears , does not affect the product in any patentable sense. Applicants further argue , in regards to claims-9 and 10, that in view of their above argument, the claims are allowable. The examiner disagrees and submits that in accordance with such arguments forward against applicants' argument, the claims are not deemed allowable.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

7. This application contains claims 12-19 drawn to an invention nonelected without traverse in Paper No. 8-16-04. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
